

NEW: *Wood Industry* Product Source Directory!

*Showcase your products through
a unique, searchable, web database.*

A new way to reach buyers

Wood Industry has invested thought and resources in a new way to connect your products to your customers: the **Product Source Directory**.

Residing on *www.WoodIndustry.ca*, **Product Source Directory** allows users to search discreet categories for suppliers to the Canadian market, complete with contact information, and you control the content. You may post product briefs, video links and photos, and a link to your site.

YOU control the information and photo uploads through our simple custom interface.
